SENIOR PROJECT DELIVERY ENGINEER | PMP®

Infrastructure Delivery | Operational Readiness and Handover | Governance and Compliance | SOPs and Standardization | Automation (Python, VBA) | Reporting and Decision Support

KEY HIGHLIGHTS

- Ministerial Recognition: Personally received the 2025 Excellence Award from the Minister of Transport and Logistic Services for outstanding performance and innovation in infrastructure delivery.
- Lead interface-heavy infrastructure delivery in live operational environments, coordinating approvals, readiness gates, constraints, and handover documentation across multiple stakeholders and contractors.
- Build and implement SOPs that formalize delivery workflows, roles, and quality gates, strengthening consistency, accountability, and audit readiness.
- Led digital transformation by redesigning reporting workflows and deploying Python and VBA automation with governed templates and validation controls, improving reliability, consistency, and decision speed.

PROFESSIONAL SUMMARY

Senior Project Delivery Engineer who delivers complex infrastructure workstreams end-to-end, from planning and execution to operational readiness and handover. PMP certified, recognized for strong delivery governance, stakeholder leadership, schedule discipline, and compliance-focused execution. Known for elevating delivery performance by implementing SOPs and building rules-based automation that removes ambiguity, standardizes outputs, and improves quality across business-critical operations.

CORE COMPETENCIES

Project Management | Project Delivery and Governance | Operational Readiness and Handover | Planning and Scheduling | Stakeholder and Interface Management | Compliance, Quality Gates, and Controls | Risk Identification and Mitigation | Process Standardization and SOP Development | Workflow Automation (Python, VBA) | Data Analysis and Reporting (Excel, Power BI)

PROFESSIONAL EXPERIENCE

SAUDI ARABIA RAILWAYS (SAR), Riyadh

Senior Project Delivery Engineer, Infrastructure

2022 to Present

- Lead delivery and operational readiness for infrastructure workstreams from planning through handover, ensuring alignment with standards, safety requirements, and operational constraints.
- Support delivery across major infrastructure programs, including Phosphate Junction to Waad Al Shamal Industrial City Line, NSR and EWR Connection Junction, Sadara to King Fahad Port Corridor, and Hofuf Bypass Project.
- Own delivery governance across scope, interfaces, schedule, risk management, and approvals, driving stakeholder alignment and rapid resolution of constraints impacting readiness milestones.
- Reviewed SOWs, RFPs, and technical deliverables to strengthen scope clarity, governance controls, and operational readiness requirements.
- Manage operational readiness activities including stakeholder approval coordination, readiness gate closures, and structured handover documentation to enable safe transition into operations.
- Implemented Infrastructure Projects SOPs to formalize procedures, roles, decision paths, and controls, improving execution consistency and audit readiness.
- Standardized Notification of Works governance using controlled templates, business rules, and quality gates to remove ambiguity and improve consistency of operational notifications.
- Automated Weekly Operating Notice generation and OCC data logging and reporting, strengthening reliability, reducing manual handling, and minimizing human error.
- Built rules-based automation for end-to-end Notification of Works production, embedding validation checks and controlled outputs to enforce quality by design and reduce rework.
- Strengthened reporting and decision support by producing controlled operational outputs and improving visibility across delivery and operations stakeholders.

ALKHURAIJI FACTORY, Riyadh**Planning Engineer**

2020 to 2022

- Improved production capacity by redesigning planning workflows, balancing loads, and tightening coordination between production, maintenance, and supply chain.
- Eliminated bottlenecks through root cause analysis, re-sequencing of activities, and resource optimization, improving throughput and delivery predictability.
- Built and maintained integrated schedules using dependency-based planning, enabling clearer priorities, stronger constraint management, and faster execution decisions.
- Implemented performance tracking and reporting to detect constraints early, reduce rework, and improve execution control.
- Strengthened compliance readiness by coordinating corrective actions and embedding safety requirements into daily planning routines.

YANBU ARAMCO SINOPEC REFINING COMPANY (YASREF), Yanbu**Standards Engineer Intern, During Studies**

2021

- Supported data integrity improvements by strengthening SAP inventory practices and standardized records.
- Supported procurement activities and reviewed technical specifications for alignment with organizational standards.

EDUCATION

Bachelor of Mechanical Engineering, Applied Engineering College, Riyadh | 2021 (First Class Honors)

Associate Degree in Mechanical Technology, Yanbu Industrial College, Yanbu | 2019

Diploma in English Literature, University of Regina, Canada | 2015

CERTIFICATIONS

Project Management Professional (PMP®), PMI | Certification No. 3972302

Certified Key Performance Indicators Professional, The KPI Institute | Certificate No. 060511648-2529-CKPI2

Certified Strategy and Business Planning Professional (C-SBP), The KPI Institute | Certificate No. 10093221-2536-CSBP1

PROFESSIONAL DEVELOPMENT

Operations Management Training, Transport Sector, Riyadh | Dec 2025

Auditing of Projects and Contracts, Leoron Institute, Riyadh | Oct 2024

Advanced Risk Management Training, Riyadh | Oct 2024

Crisis and Disaster Management, Riyadh | Oct 2020

AWARDS AND RECOGNITION

Excellence Award, Ministry of Transport and Logistic Services, Kingdom of Saudi Arabia | 2025 (Presented by the Minister)

Certificate of Appreciation, Saudi Arabia Railways | Outstanding Performance, Q2 2025

Toastmasters Best Speaker Award, YASREF | Sep 2019

University of Regina International President Award, UOR | 2015
